21 November 2024

Dear parents and carers

Kingston University, in partnership with The National Saturday Club, are offering Year 10 students the opportunity to be part of one of two exciting projects: the **Art & Design National Saturday Club** and the **Science & Engineering National Saturday Club**. Both clubs are **completely free**.

Each club will run for 16 weeks, taking place on a Saturday at the Penrhyn Road and Knights Park Campuses at Kingston University. The clubs start on **18 January, running until 21 June 2025**.

Places are limited and other schools are also invited to take part. **You may only apply to one club and the deadline for applications is 6:00pm on Monday 9 December 2024**. The University offers places based on who they believe will benefit most from these opportunities. **Successful applicants will be told on Friday 13 December 2024.**

This is a brilliant opportunity for you to gain valuable experience in industry leading facilities with expert tutors and guest academics. **For more information, take a look at** [this presentation](#) **and** [this video](#).

To apply please [CLICK HERE](#).

Best wishes
Mrs Lockhart and Mrs Oakey
