

23 January 2025

Dear parents and carers

You may remember back during your young person's transition from Year 6 to Year 7 we talked to you about our **One-to-One Device** initiative. We are pleased to announce that we are now ready to launch this scheme and have selected a device that we believe gives the best performance and value-for-money (see specification below). Our aim is that, over the next year, **every student in our current Year 7 cohort will own a device**, which they will be able to use in class according to the teacher's guidance, to enhance their learning experience.

We are offering the opportunity for you to purchase one of these electronic learning devices for your young person by instalments over a **36-month period**, which includes full warranty and insurance cover for Accidental Damage and Theft.

The device is available with **4Gb of RAM for £17.15** per month, or **8Gb for £18.25** per month.

On **Monday 3 February** we will email you again with the link to join the scheme, and the details of how that process works. **To secure these prices you will need to sign up before 10 March.** More Purchase Windows will open later in the year, but the prices may be higher than this initial offer.

This initiative marks a significant step toward our ambition of becoming a fully Microsoft One-to-One Device school, enabling us to better integrate technology into our teaching and learning practices. We hope that you are as excited about this opportunity as we are, as we work together to equip our students with the tools they need to succeed in an increasingly digital world.

Thank you for your continued support and engagement in your young person's education. If you have any questions or require further information, please contact me, Mr B Stafford bstafford@carringtonschool.org.

Device Specification: ASUS BR1100F 11.6" Touch N4500 128Gb SSD

Best wishes

Mr B Stafford
