Dear parents and carers

Update on Covid-19 and Seasonal Flu Vaccinations

The Immunisation Team from Surrey Children & Family Health were here today and have administered vaccinations to a good number of our Year 11 and Year 10 students.

They have re-opened the Consent Portal NOW, and we are looking to set up another date for them to return to vaccinate more students across all year groups.

You can provide your consent here www.surreyimmunisations.co.uk using our unique code/URN number **SR143903**.

The Immunisation Team have asked us to share the following message with all our parents and carers:

Dear parents and carers,

The Government has requested us to prioritise childhood flu and covid immunisation delivery. We will deliver an amount of Covid and Flu vaccines to each school, on prearranged scheduled visits. I am sure you can appreciate that this roll out of delivery has been extremely rapid. We are committed to delivering immunisations to all school children in a safe and effective manner until we have completed this delivery.

We have had to postpone the HPV delivery and instead start to deliver Flu & Covid, we are working hard to deliver this, and I must reiterate the importance of delivering this safely to our community, therefore we may have to expand the normal time needed and protect all those involved.

To reassure you we are in the process of arranging additional dates of immunisation delivery (as requested by the government) to the school and if you have consented for your child to receive the Flu & Covid vaccine then be assured that this will happen. The E consent portal will reopen after each immunisation session to parents who would like to consent. The school will let you know the dates that we are due to visit in the near further.

Kind regards
Jill Dawe
